BLU-N

Unique Carbon complexed liquid Nitrogen fortified with natural growth promoters and uptake enhancers. Blu N is a highly efficient liquid N giving powerful foliar and soil injection/fertigation results. Very easy and safe to handle.

Benefits

- ✓ Proven cost-effective liquid N*
- ✓ Very safe on plants even at higher rates
- ✓ Enhanced by natural compounds for fast absorption into plants.
- ✓ Enhancers & improves activity/efficiency of other products in tank mixes.
- ✓ A stabilised source of nitrogen for minimal loss to volatilisation and leaching.
- ✓ Compatible with most other nutritional and chemical products.

Typical Analysis

	G/L	% w/v	%w/w
Nitrogen (N)	260	26	22.6
Organic Carbon	105	10.5	9.2
Enhanced with Fulvic and Amino Acid			
pH	6.9 – 7.7		
SG	1.10 – 1.21		

Application Rates

Foliar	Rate/Ha	Water	Fertigation	Rate/Ha	Water
Broad acre	10-100L	50-120L	Horticulture	20-120L	Variable
Horticulture	5-100L	500-1000L	Viticulture	10-100L	Variable
Viticulture	5-30L	300-1000L			
Furrow Injection	Rate/Ha	Water			
Broad acre	10-60L	50-100L			

Packaging: 20L, 200L, 1000L and Bulk
