## Super Cal 30

A micronised liquid suspension of natural Calcium Carbonate boosted with Boron and Fulvic acid for use in all farming systems to build soil and plant health.

### Benefits

- ✓ Micronised Calcium in a liquid medium, that is highly reactive in soil, and effective in the suppression of sodium and other elements detrimental to plant performance when in over abundance.
- ✓ Efficiently ameliorate soils and biology stimulation, with natural calcium. Promotes healthy legume growth in pasture systems.
- ✓ Calcium is essential for healthy growth for all crop types, to reach maximum yield potential.
- ✓ As a compact and easy to transport product, Super Cal 30 provides a cost-efficient option.
- ✓ A perfect addition to precision-ag practices, including VRT, injection systems, and flood jetting, for getting lime supply on farm.

### Typical Analysis

	G/L	% w/v	% w/w
Calcium (Ca)	305	30.5	20.2
Potassium (K)	5.6	0.56	0.38
Magnesium (Mg)	6.2	0.62	0.42
Boron (B)	2.3	0.23	0.15
Organic Carbon (OC)	90	9.0	6.0
Organic Matter (OM)	153	15.3	10.2
Particle size	1 - 5 micron		
pH	7.9 – 8.5		
SG	1.45 – 1.55		

### Application Rates

Application	Rate (L/Ha)	Water
Boom spray: Soil Application	5 - 60	80 – 500L/Ha.
Fertigation/Pivot	10 - 30	Variable with good agitation
Liquid Injection	2 - 5	Variable with good agitation

**Note:** (1) Mix concentrate, before use and mix while in the tank. Do not leave solution in tank without agitation over prolonged periods of time, as settling out can occur.  
(2) Ensure lines and equipment are flushed, immediately after use, as liquid tends to harden on drying.

**Packaging:** 20L, 200L and 1000L
