

## Technical Brochure

### ✓ Rhizobium inoculant

## Green Rhiz

Green Rhiz is the powerful new generation Rhizobium inoculant available for legume seed treatment. Green Rhiz is a peat inoculant that is up to 5 times more concentrated than typical peat inoculants, making it easier to apply and easier to store.

### Benefits

- ✓ Concentrated formulation
- ✓ Easy to use, apply and store.
- ✓ Can used in liquid injection systems.
- ✓ AIRG Approved Strains
- ✓ Australian Made and Owned
- ✓ Peat based Inoculant.
- ✓ Up to 80% less peat compared to traditional products.
